

Solutions For Industrial Maintenance

High Voltage Insulation Tape

- Self-Fusing Silicone Rubber Tape, 15KV BDV
- Class H, Operating Range -50° C to 260° C
- Application: Insulating Busbar Splice and Weatherproofing of Joints

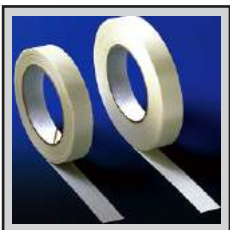

Junction Box Sealing Tape

- Industrial Grade Aluminium Foil Tape
- Conformable Tape, Easy to Use, Quick Application
- A Must have for Monsoon Protection or Plugging of Holes in Panels

Gasket Tape

- Durable, Flexible Foam Tape
- Prevents Dirt, Dust and Moisture Entry
- Also used for Vibration Dampening Applications

High Temperature Glass Cloth Tape

- Self- Adhesive Glass Cloth Tape for Continuous use upto 200° C
- Suitable for High Temperature Applications requiring Mechanical Strength
- Holding of Non- Adhesive Insulation Materials

Anti Skid Comfortable Tape

- Prevent Slip, Trip and Fall Incidents
- Self-Adhesive Anti-Skid Tape for Outdoor Use
- Heavy Grade Available for Industrial Application

Silicone Coated Fiber Glass Sleeve

- Extremely flexible Sleeve with High Dielectric Protection upto continuous temp 180° C.
- Good Abrasion Resistance & Fire Retardant
- Used for covering live wires, Lead wires in Industrial, Aerospace, Railway & Electronics.

Polyimide Adhesive Tape

- Tough, Thin Insulating Tape for wrapping Coils, Transformers, Capacitors,
- Suitable for High Temperature, Low Clearance Applications anchoring leads / terminal boards.
- Also, Suitable for High Temperature Masking Applications
